

2 Dec 82

Dear Mom & Dad,

I was thinking of you today while on my run that goes near Mary's house. It is cloudy today but still mild. Vickie and I have been keeping busy, especially me now that my computer system is operational! I have nearly completed my budget program and will send you a sample output when available.

We bought a pasta machine and used it last night. One just puts flour & water in the top and in 20 min the strands have all emerged and are ready for cooking (less than five min). There are several different blades for different shapes of pasta. And, of course, we make ice cream frequently.

Vickie went to a fashion show with Mary yesterday and had a good time. They are coming for dinner a week from tomorrow so I need to get a game running for Diane. Last night we recorded a holiday show for her as two channels had good shows.

That was quite a coincidence to meet the Bulls and I'm glad your trip went well.

Love,
Jim
